| Transfer In ¹ | 83 | 18 | 11 | 12 | 5 | 129 |
| Total Live Intake | 1007 | 142 | 668 | 1041 | 224 | 3082 |
| LIVE OUTCOMES | DOG | PUPPY | CAT | KITTEN | OTHER | TOTAL |
| Adoptions | 516 | 137 | 230 | 576 | 166 | 1625 |
| Reunited with Owner | 243 | 5 | 24 | 6 | 0 | 278 |
| Transfer Out ² | 226 | 13 | 306 | 303 | 42 | 890 |
| Total Live Outcomes | 985 | 155 | 560 | 885 | 209 | 2794 |
| OTHER OUTCOMES | DOG | PUPPY | CAT | KITTEN | OTHER | TOTAL |
| Died in Care ³ | 7 | 3 | 18 | 60 | 6 | 94 |
| Lost in Care ⁴ | 10 | 7 | 38 | 18 | 16 | 89 |
| Shelter Euthanasia ⁵ | 19 | 9 | 54 | 74 | 4 | 160 |
| Total Other Outcomes | 36 | 19 | 110 | 152 | 26 | 343 |
| TOTAL OUTCOMES | DOG | PUPPY | CAT | KITTEN | OTHER | TOTAL |
| Live and Other Outcomes | 1021 | 174 | 670 | 1037 | 235 | 3137 |
| Ending Shelter Count | 42 | 9 | 68 | 78 | 21 | 218 |
| ASILOMAR LIVE RELEASE RATE ⁶ | DOG | PUPPY | CAT | KITTEN | OTHER | TOTAL |
| Total Live Release Rate | 97.43% | 92.81% | 88.61% | 86.85% | 95.43% | 91.67% |

1. Refers to animals that were transferred in from high kill shelters and made available for adoption through our shelter
2. Refers to animals that were transferred to other shelters or rescue organizations
3. Refers to animals that died of natural causes: Because we accept all animals, including those who have been abused, neglected, and injured, bottle babies, animals who are very sick and animals who are very old, some pass away regardless of our efforts.
4. Includes animals that were placed in a home, but whose families moved away without leaving forwarding contact information prior to finalizing adoptions and to animals that escaped prior to adoption but were not recovered: In 2016, we chose to report all unresolved animals that were still listed as active as "lost in care" in order to be completely transparent. These numbers represent animals that may have been in our system for up to 10 years with no family contact or outcome resolution.
5. It is the policy of the HSCC to euthanize only as a last resort to alleviate pain and suffering after all other treatment protocols have proven to be ineffective. The HSCC does not euthanize for space or behavioral reasons.
6. Calculated by dividing total live outcomes by all outcomes. Adjustment made for accumulated lost in care (see note 4 for details.)
